

## Video Intercom and Access Control System

For Apartments, Condominiums, and Gated Communities.

### Features List:

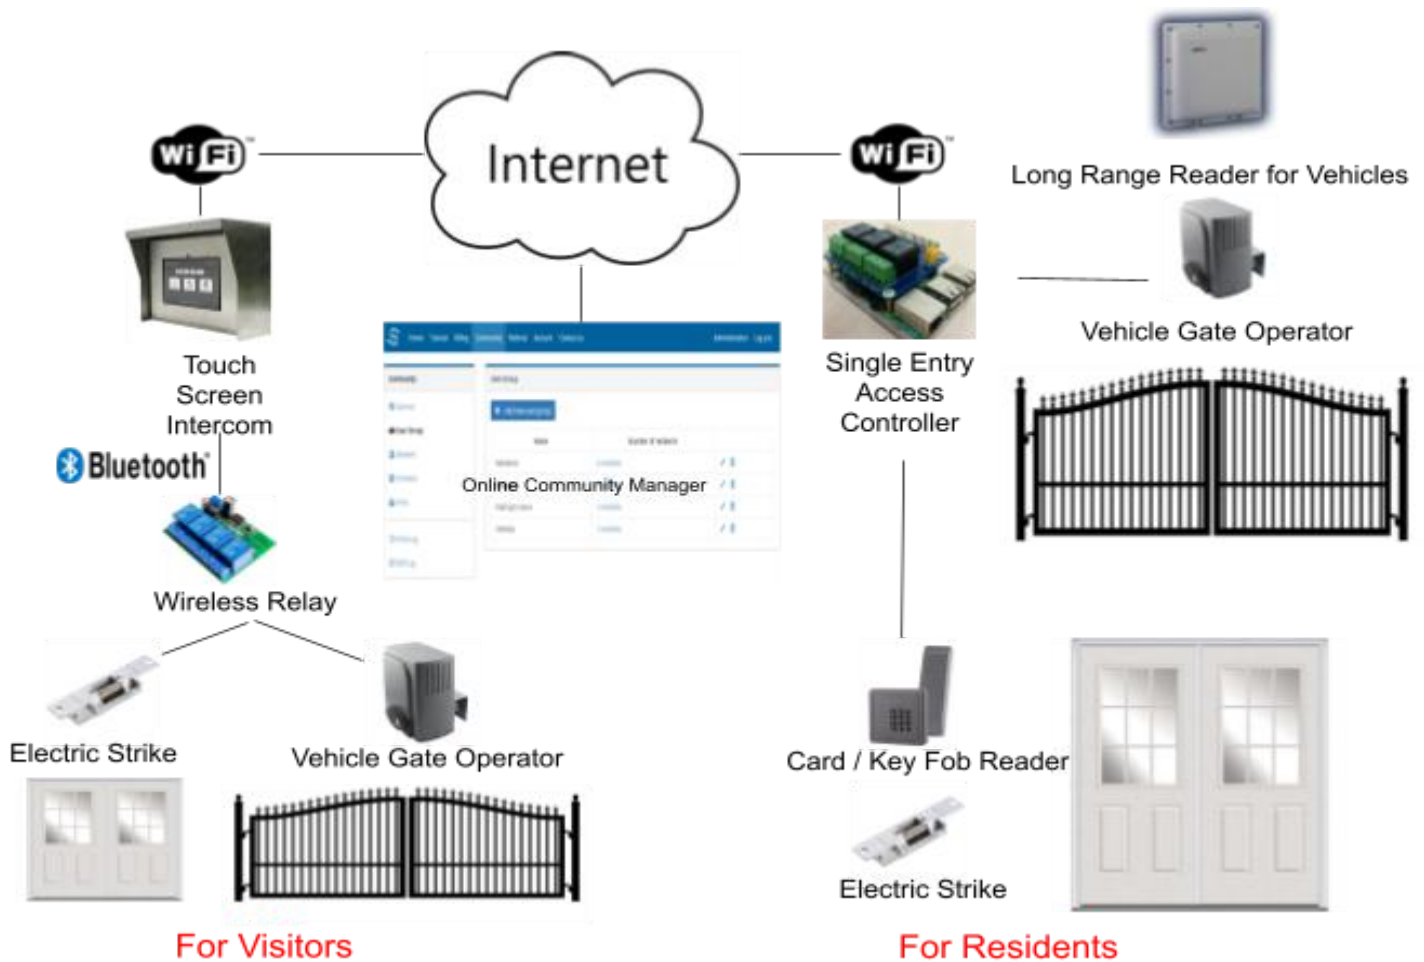

- **Unlimited live video and voice calls** allows residents to see their visitors using their smartphone before allowing entry.
- Supports iPhone and Android, allowing residents to create unlimited **guest codes** in QR or numeric format for their pre-authorized visitors.
- Complete hardware **starts at \$599** per entrance.
- A single system provides a **complete solution** for the whole property, allows both visitor entry AND access control for shared areas such as the pool, gym, clubhouse, garage.
- Low monthly fee of **only \$2 per home or office** with no term contract. (minimum monthly fee of \$50 per community)
- High tech touch screen **connects wirelessly** via WiFi Internet without the need to pay for land lines, VOIP, SIP, nor LTE.
- **Cloud based community management** for convenient anywhere property management.
- Wirelessly connected systems allow quick, easy, and thus, inexpensive installations.
- No additional hardware is needed inside each home or office.
- Support unlimited number of entrances, schedules, doors, gates, residents, and visitors.
- Fully logged access history stored in the cloud for easy review.
- The merchant list allows communities to **sell advertising** to nearby businesses.
- (Optional, extra fee) Take and store a picture in the cloud every time the door is opened.
- (Optional, extra fee) Smart Lockers for package delivery or self storage service, see back.
- (Optional, extra fee) Digital advertising plays a looping video on dedicated video boxes for you to charge advertising to vendors looking to do business with your residents.
- (Optional, extra fee) Cashless vending eliminates coins from washers, dryers, electric car charging stations, short term rental of conference / party room, and office equipment.
- Custom requests - tell us what you want to accomplish and we will try to make it happen.

Advertise Your Property with a Custom Graphics Acrylic Cover for Only \$100

## Complete Solution For Your Community

## Multiple Access Methods

- Supports video call to a smartphone, or a voice call to any number in the USA, Canada, and Mexico.
- Using a numeric access code or scanning a QR code at the entrance, either temporary (for pre-authorized visitors) or the permanently assigned (for residents).
- Using any kind of Wiegand compatible RFID, Bluetooth, NFC, or Biometric based readers with a key card, fob, barcode, fingerprint, facial, retina recognition, license plate, or vehicle sticker at the entry.

## **New!** Smart Package Lockers

- \$999 first locker includes 7" touchscreen controller.
- \$699 each additional locker.
- Mix and match from 3 locker models, 9-, 6-, or 4- doors.
- Two Operating Modes:
  - Package Delivery Mode - for mailrooms.
    - Sends a text msg upon package delivery
  - Self Service Mode - for gym, pool, etc.
    - Use the same access code to operate locker
